Dr. Julie McIntosh practiced family medicine and served as medical director for the Muskogee and Okmulgee county's health departments. Julie believes patients, should determine path to health and well-being with their doctor, not government mandates. Julie supports closing the border, stop indoctrination of children of gender fluidity and CRT, teach curriculum of principals of America's founding fathers and religious freedom, lower taxes, combat voter fraud, and protect property rights. Julie believes strongly in our inalienable, God-given rights, not government, are recognized by the United States Constitution and the Oklahoma Constitution and must be protected. The right of parents to determine what is best for their children in all areas, including health and education, should be protected. Citizens have the right to keep and bear arms and "Shall not be infringed" is simple and straightforward. Legislators in OK, have abrogated lawmaking responsibility to appointed bureaucrats in numerous agencies. New agencies are added each session. We must reduce the size of government. It is imperative that government spending be reduced to only the essentials. I support eliminating personal income tax in Oklahoma and NOT replacing it with increased taxation and fees in other areas. Dr Julie is overwhelming Pro-Life, 1st amendment supporter of freedom of religion and speech, and 2nd amendment right to bear guns. Julie is knowledgeable of the policies of land grab, smart cities, and the multiple layers of government trying to be installed in our cities and counties. Julie will stand strong against this and in faith.
