86 Cultures Over 5000 Years, Sex and Culture Study By Dr. J. D. Unwin. 1934

by Phillip Yancey/ Dec 12, 1994 (Christianity Today) excerpts:

If we make a god of sexuality, that god will fail in ways that affect the whole person and perhaps the whole society! Seeking to test the Freudian notion that civilization is a byproduct of repressed sexuality, the scholar J. D. Unwin, an anthropologist, studied 86 different societies (3 were tribal) over 5000 years of written history.

His findings startled many scholars - above all, Dr. Unwin, himself - because all 86 cultures demonstrated a direct tie between monogamy and the "expansive energy" of civilization.

For Roman, Greek, Sumerian, Moorish, Babylonian, and Anglo-Saxon civilizations, Unwin had several hundred years of history to draw on. He found with NO exceptions, that these societies flourished during eras that valued sexual fidelity.

Inevitably, according to Unwin, after a nation becomes prosperous it becomes increasingly liberal with regard to sexual morality, loosens it's restraints and as a result loses it cohesion, its impetus and its purpose. This affects the societies, they would subsequently decline (go into debt) and ultimately completely pass away!

No Nation that rejected monogamy in marriage between one man and one woman, and pre-martial sexual chastity, in all written history, ever lasted longer than one generation after it embraced sexual hedonism.

The whole of human history does not contain a single instance of a group becoming civilized unless it has been absolutely monogamous marriages, nor is there any example of a group retaining its culture after it has adopted less rigorous sexual standards. Dr. Unwin published his findings in 1934 book entitled, "The Sexual and Economic Foundations of a New Society," but, with his death in 1936, the research has been largely (and conveniently) forgotten.

Dr. Unwin's research clearly revealed that marriage -(monogamous heterosexual man and woman marriage) is the foundation for a healthy society.

Destruction of Biblical Marriage brings Actual Death and Extinction to a Nation!

Tulsa City Council ELECTION, 3 Propositions, & Run-off

VOTING DATE – Tuesday, August 23, 2022

Three Proposed Amendments to the Tulsa City Charter:

https://www.cityoftulsa.org/apps/COTDisplayDocument/?DocumentType=CouncilDocument&DocumentIdentifiers=471

Proposed Charter Amendment No. 1 — VOTE NO

Mayor's Increase of Salary: Taking Power from Charter and Giving to City Council

This amendment is a housekeeping measure. In 2001, the Mayor's salary was set by ordinance at $105,000, but our Charter has language dating back to 1990 that still refers to the first Mayor's annual salary of $70,000. This amendment removes this outdated and conflicting reference to the first Mayor's salary being $70,000. If this amendment is approved, it will not change the Mayor's salary.

Note: WARNING -This is NOT a HOUSEKEEPING MEASURE. IF PASSED, Voters will Give Power to the City Council to SET ANY SALARY FOR THE MAYOR WITH NO LIMIT by Ordinance per Resolution. Ordinance is defined as: Salary adopted by MAJORITY VOTE OF ENTIRE Membership of Council (not unanimous) and Deleting the Salary amounts from the Charter. Thus it looks like they were not following the Charter and now trying to amend the Charter after the face. Also, If the city set Salary of $400,000.00 by 5 counselors - no one can stop it without it being in the Charter with limitations, amounts and stipulations.)

Note: The Mayor and City Council just approved an outrageous 968 MILLION DOLLAR BUDGET, JUNE 17, 2022, a 21% increase with only 417,298 Tulsa population per Police Dept.

Proposed Charter Amendment No. 2 — VOTE NO

Changing Residency Requirement for Candidate (from 90 Days to 365 Days)

Currently our Charter provides that the Mayor and City Auditor must be Tulsa residents at the time they announce that they are running for office, but it does not require residency for any specific length of time. A candidate for City Council must be a resident in the district in which they are running for at least 90 days. This amendment would add a 365-day City of Tulsa residency requirement to run for Mayor or City Auditor and increase a Council candidates Council district residency requirement from 90 days to 365 days. This amendment also clarifies that, should a candidate's Council district be changed when district boundaries are adjusted every 10 years due to a population shift, a candidate can still run for City Council in their new Council district.

Note: Mayor and Council are changing the requirement for Candidates, but the City Councilors are exempting themselves. We witnessed this meeting and hearing them talk about how they were going to keep themselves able to run by exempting themselves was grieving. Plus 365 days stated in Resolution adds the words "qualified elector" with term resident, another stipulation.

Proposed Charter Amendment No. 3 — VOTE NO

City Auditor 4-Year Term

The City Auditor is elected city-wide and currently serves a 2-year term of office, the same as City Councilors. The Mayor is the only other office holder elected city-wide and serves a 4-year term. This Charter amendment would change the City Auditor's term in office to 4 years beginning in December 2026 and would stagger the Auditor's term so that the Mayor's and Auditor's elections and terms are offset by 2 years.

Note: It appears Mayor is trying to keep people in office after he leaves. It states in the Resolution the Auditor will serve every two years until 2016 but their start date will be 1st of December instead of January as others. Most Auditors want to close year they worked through.

District 2

AARON BISOGNO **Republican** **Leans Conservative**

He said he played football under the late Coach Alan Trimble at Jenks and believes in the power of prayer. He pointed out Tulsa City Council unanimously passed a resolution mandating COVID 19 masks and shut downs of businesses, which he strongly opposes; that is one of the reasons he is running. (83 major businesses in Tulsa filed bankruptcy 2020 alone and another 12 major businesses in Jan & Feb 2021 due to these over-reaching mandates. Surrounding cities, like Broken Arrow, Glenpool and Sapulpa, who had no mandates, thrived, and Tulsa people came in groves to eat and spend there. Other states like Florida and South Dakota thrived with no mandates and Covid infection rates were the same or lower than cities of mandates.

DANIEL JOSEPH GROVES **Libertarian** **VERY LIBERAL**

Daniel is running because he believes District is dilapidated because of a lack of attention from city officials. His background isn't political, I'll be honest about that. I've done my fair share of management through starting businesses and managing projects. Just a guy who cares about his community and absolutely hates to see the district mismanaged and neglected. Groves wants to undo a lot of harmful policies put in place by Bynum and the current council member for district 3. For example-- the budget for 2023 is horrible and ***against increases the spending for police in Tulsa by 17.6%,*** **which Daniel believes negatively affects lower income areas.** Also, to change zoning regulations for abandoned buildings around the area so that they can be revived and contribute to the district. All that and start convincing the people who make decisions for school budget expenditures and infrastructure budget allocation to start prioritizing district Groves ***is pro-choice and backs legalizing recreational marijuana***. ***He is neutral regarding religious freedom at risk***.

A Parent of the "immersion" school, was concerned stated "Teenagers are teenagers and our children were hearing and seeing inappropriate things," she told the board.
