Proposition, Hotel Tax Proposition 1 – VOTE NO

TULSA CITY OVER-TAXING of RESIDENTS & VISITORS

Nov 3rd, 2026

Tulsa County proposed increase to City's Hotel Tax from 5% to 9.9 Tax.

Will Take Effect January 1st, 2027 – Estimate Income is $10M to about $20M

It Starts a Tulsa Regional Chamber Estimated $4 million is 40% of increase
Why Does Regional LIBERAL Chamber includes other Cities and Counties?

This will drive people to stay outside of Tulsa, over tax friends, relatives, who visit, increase cost of any conventions, business meetings or events in the city and affect residents of Tulsa by increase prices for events they attend.

The money does not help any Resident, in fact increases costs to them.

It funds Arvest, BOK, Kaizer, TPAC Convention & Stadium Center,
who should be supporting themselves, NO ACCOUNTABILITY OF MONEY.

Has nothing to do with Tulsa?

Already Bonds have been passed to subsidize these ventures.

VOTE NO

WAGONER CTY OAK FIRE MILLAGE PROPOSITION

THIS INCREASES to 10-MILLAGE ON ALL PROPERTY up to 15 years?

Wagoner County has NOT posted Official Document of Proposal, the actual Millage or for how many Years. HAS NOT POSTED BALLOT LANGUAGE EITHER – states it is up to a committee to decide up to 15 years. Without full disclosure of EXACTLY how many YEARS and EXACT NUMBER of Millage – IT IS A NO

DON'T GIVE THEM ACCESS TO YOUR BANK ACCOUNT

This alone is A BIG NO VOTE.

It is not a countywide tax, it applies to property located within Oak Grove Fire Protection District.

The state listing unfortunately does **not yet publish the full ballot language or the millage amount in Election-list page itself**; it identifies the contest but only labels it "Proposition." Oklahoma Elections

That distinction matters because I've found documentation showing that Oak Grove **already operates at a 10-mill assessment**, which is the maximum authorized rate under the applicable Wagoner County/Title 19 framework. SO WE ARE CONFUSED!

Oak Grove's own information says:

- It is funded through special assessments on assessed property values.
- Its current assessment is 10 mills. (said prior already chg. 7)
- 10 mills is the maximum allowed under its existing authority - title 19.

So, for example, if a property had an assessed value of $30,000, a 10-mill levy would equal roughly $300/year for that particular levy on property.

Can go to 15 years assessment and amount millage is not established

VOTE NO To POOR PLANNING & LACK OF INFORMATION of Charges.
